About Me

I am a proactive, creative and orderly person. Ability to work in a team, ability to adapt and learn.

Currently I have almost 2 years of experience as a Front-End developer and 3 months as a Full-Stack developer. I am looking for a job in a dependency relationship to demonstrate my desire, motivation and knowledge for this profession.

Hobbies

In my free time I find myself starting a project called CryptoMc and HFTX. Both provided me with many experiences, such as communicating with clients and potential investors in the best way, practicing English when transmitting and developing an idea, programming and design skills, elaboration of strategies and Marketing campaigns, decision making and solution proposals, analytical skills, planning and organization, among others.
